# Our Philosophy

Agape International Academy (AIA) is a classical and international education program that is partnering with parents to personally and purposefully build loving leaders who are disciplined in soul, mind, and body for the glory of God. Our design is to do more than simply equip our students for higher academic learning. It is to contribute in the building their physical health and their personal character to guide them in the present and to prepare them for their future. Our staff team recognizes that God made each child an individual with unique gifts for which they are personally responsible. The staff team respects the individual needs of the students while fostering a community that is practicing taking personal and corporate responsibility to serve the needs of their concentric communities.

## OUR CURRICULUM

1. Biblical foundation supports teaching students how to learn.
2. Guiding students to be civic leaders who serve their local communities.
3. Founded by American educators who are grateful for their heritage.
4. The scientific method is used to identify problems and their solutions.
